Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 26 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Windy and feeling mild by both day and night.

Today:
Rain spreading eastwards and turning patchier in the afternoon. Quickly turning windy in the north first thing, with strong gusts developing, and becoming breezy elsewhere. Feeling milder than Monday. Maximum temperature 17 deg C (63 deg F).

Tonight:
A very windy and gusty night with the risk of near gales along north western exposed coasts. Feeling very mild under cloudy skies throughout, with some drizzle over higher ground. Minimum temperature 13 deg C (55 deg F).

Wednesday:
Cloudy again on Wednesday and staying mild. Outbreaks of rain affecting the northwest at times, while drizzle continues in the south. Remaining windy and gusty, particularly in the northwest. Maximum temperature 17 deg C (63 deg F).

Outlook for Thursday to Saturday:
Remaining breezy with outbreaks of rain through to the end of the week, these heavier and more persistent at times. Feeling fresher on Saturday.
